Summary

With 7+ years backend-end PHP experience with part of front-end experience and half year full stack experience, I am now looking for a full stack or front-end opportunity to learn and gain more experience on frameworks development.

I am a fast and keen learner with a good attention to details and excellent troubleshooting skills. I am also a good team player who has a proven ability to work analytically. I am highly efficient, deadline focused, and handle multiple projects at same time.

Skills

Web Development

- `PHP` - '>= 5'
- `Ruby on Rails` - '>=4'
- `SQL` - MySQL, PostgreSQL
- `JavaScript` - jQuery, Mootools
- `Versioning` - Git
- `Package Managers` - Composer, NPM
- `Tools` - Github, BitBucket, Jira, Stash, Trello, Confluence
- `Editors` - Vim, RubyMine, PhpStorm, Sublime Text, Atom

JavaScript Skills

- `React` - Mid level knowledge
- `Backbone` - Basic knowledge

PHP Frameworks

- `Symfony` - Mid level knowledge
- `Laravel` - Basic knowledge

System

- `macOS`
- `Linux` - Ubuntu, CoreOS

Experience

Web Developer @ DevHub

July 2016 - Present

- Build a new partial React.js website based on existing website (projectmate.com.au)
- Solely responsible for full stack development of multiply React.js/Rails apps (mealmonster.com.au, little-lion.net)

PHP Developer @ Agentbox

June 2009 - July 2016

Agentbox CRM System

Agentbox CRM System is a leading CRM system to the Australian real estate industry. The system is built by PHP with procedure code. We moved to use Symfony 2 framework from the end of 2015 that make the code more reusable, readable and efficiency.

Architecture:

- Symfony 2
- MySQL
- LAMP
- Composer
- Mootools + jQuery

Responsibility:

- Maintain legacy business logical code
- Refactor legacy business logical code into Symfony framework
- Develop and maintain new features/business logic with Symfony framework

Agentbox GO System

Agentbox GO System is a mobile and simplifies version of Agentbox CRM System. The system is built by PHP with object-oriented programming.

Architecture:

- PHP
- MySQL
- LAMP
- jQuery Mobile

Responsibility:

- Maintain system for bugfixes.

Eduction

Master of Computer Science

University of Wollongong . 2007 - 2008

Bachelor of Computer Science

University of Wollongong . 2005 - 2007

Interests

- Photography: my Instagram @ishotsth
- Traveling: view the world, and take photos
- Mobile/Desktop Applications: like to try new apps
- Gadget: like new gadgets
- Learning edge tech: keep learning and updating myself.
- Watching: like comedy and sci-fi
